

Agenda DBL Meeting 2

09/02/2021 (10.45-11.45)

Group 7

Chairman: Thomas

Secretary: Dolf

Board writer: Vito

Goal of the meeting

Come up with one RPC list, discuss the findings and divide tasks for the upcoming experiment.

Meeting

1. Opening (± 10.45-10.48)
 - Attendance
 - Accept agenda
2. Announcements (± 10.48-10.50)
 - Did everybody hand in their SSA's?
 - Are their problems with the SSA's?
3. Presentation (± 10.48-11.10)
 - Mats gives presentation of his SSA
 - Discuss and evaluate the presentation
4. Work on the case (± 11.10-11.25)
 - Look at the RPC's and discuss the best RPC's
 - One person can make a final RPC later on
 - Discussing current situation and further development of theoretical Matlab script
 - Thermodynamics
 - Fuels
 - Further action points for the script
 - Discussing who will go to the experiment
 - Proper preparation for this experiment
 - When will we do the experiment and who will participate?
5. Planning (± 11.25-11.35)
 - Divide new SSAs
 - Further Matlab writing of theoretical part
 - Experimental Matlab writing
 - Some parts for the report which can be written?
6. Evaluation (± 11.35-11.45)

Close meeting
